Subject topic areas for talk about Triangle Lake

Hi Kay,

Thanks for your help in organizing some interviews related to the Triangle Lake public health study.

The areas I would like to cover are these: I'd like a better understanding of how the study came about and how and when EPA became involved. I'd also like to know what the EPA's roll is in the investigation going forward, which agency will take the lead, and what EPA's financial commitments are to the process. Also, if we could talk generally about other similar studies or similar complaints about atrazine and 2,4 D around the country, that would be a help. I'd also like to know what the possible outcomes are for this process, including any possible impact on the atrazine or 2.4 D labels. My understanding is that atrazine is currently undergoing re-registry and that this inquiry could have an impact.

I hope that helps. Please do be in touch and let me know when we can talk.

Thanks again,  
Lee
